Kyle Jackson on Part A Documentation
@tommychua list of what to do for documentation for submission
7 Apr at 14:10
KJ
Kyle Jackson on Part A Documentation
logs of all you r tools: i.e., repository use, project planning tool, communication tool, test case management. Make sure you remember to include Meeting Minutes.
for Trello: Open the MENU on the right and find Print/Export and export into a PDF file; ALSO find the Activity list on the MENU and copy/paste the full list into a text file. Include BOTH of these in your submission.
For your communication tool, you will likely have to copy paste the comms into a file and submit that as a PDF. For slack, a SEPT student from 2016 wrote the following utility to create a PDF report: https://github.com/thundergolfer/slack-to-pdf
Submit your Meeting Minutes as a single file, preferably PDF.
Include the URL for each of your Github, Trello, and Slack repository/board/project and INVITE YOUR TUTOR / PRODUCT OWNER as a member if you have not already done so
